

Email submitted from: maureenb@evergladesROGG.org at </bicy/parkmgmt/orv-advisory-committee.htm>

Concerning future ROGG users and existing trailheads along US 41 (Issue raised at May 29 ORV Committee meeting):

Barbara Jean raised a valid point. Several of the Parks/Preserves along US 41 have also raised this issue. I have requested that consultants for the ROGG Feasibility Study provide information about estimated trailhead usage and how ROGG plans to work with the Parks to accommodate trail users.
